

# iOS Hosted Exchange Email Setup

Application to All MapleTronics Computers hosted exchange accounts.

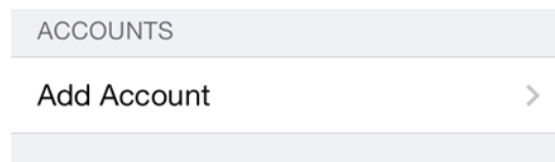

1. On the home screen, tap "Settings".

2. Tap on "Mail, contacts, Calendar".

3. Tap on "Add Account".

4. Tap on "Exchange".

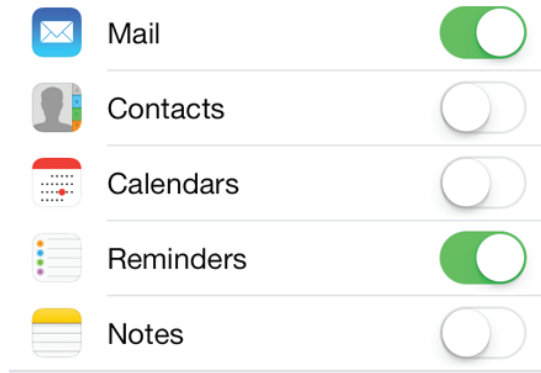

5. Enter your hosted Exchange email address in the Email field, your MapleTronics' Exchange account password in the Password field and then tap Next.

Cancel	Exchange	Next
Email	mtc@demo.com	
Password	●●●●●●●●	
Description	Exchange	

6. For an Exchange 2010 or 2013 account, enter the server value you will find in the Control Panel in the User Information section (ex: webmail.YourDomain.com). Add your main email address in the Username field and then press Next.

Server	webmail.YourDomain.com
--------	------------------------

7. On the next screen, select the information to synchronize with your Exchange account and then press Save.

Note: Your iPhone will automatically synchronize the last seven days of emails.

## Synchronize Older Messages

1. On the home screen, tap "Settings".
2. Tap on "Mail, contacts, Calendar".
3. Tap on "Exchange".
4. Tap on "Mail days to sync.".
3. Tap on option you want.

Note: By selecting No Limit, you will synchronize all the messages found in your mailbox.
