

Office 365 Email on Android

Step 1: Install Outlook

The best way to setup Office 365 on Android is to install the Outlook app.

Open the Google Play Store, search for Outlook, and install it

Open Outlook and choose "Get Started".

Step 2: Enter Email & Password

Enter the email address that corresponds to your Office 365 account, and tap "Continue". Outlook will redirect you to the Office 365 login page where you'll need to enter your password and tap Sign in.

The experience in the outlook mobile app will be very much like it's desktop equivalent. It gives you access to you're email, calendars, and contacts.
